Representative Anika T. Omphroy Appointed to Re-Open Florida Task Force

Tallahassee, FL—Florida’s Governor, Ron DeSantis, has appointed **Representative Anika T. Omphroy (D-Sunrise)** to serve on the Re-Open Florida Task Force Industry Working Group related to Agriculture, Finance, Government, Healthcare, Management and Professional Services. This group will be considering every form of commerce in those areas to examine possibilities and strategies for reopening.

As a member of both the Agriculture and Natural Resources Subcommittee and the Health Market Reform Subcommittee in the Florida House, **Representative Omphroy** is uniquely positioned to contribute to the Task Force’s efforts in recommending how to restart businesses shuttered by the COVID-19 pandemic. President and CEO of Visit Florida, Dana Young, told the group that the impact on the state has been devastating, but leaders have a high-level plan for recovery.

Representative Omphroy provided the following statement:

“I’d like to thank Governor DeSantis for the opportunity to serve the Great State of Florida in this capacity. I am looking forward to fighting for Florida’s Present and Future together. #ALLIN”
